OF VETERINARY
OPHTHALMOLOGY MEETING

ESVO MEETING BERLIN 2021

WE GO VIRTUAL

September 30 – October 3, 2021

Berlin, Germany

www.esvomeeting2021.org

Dear colleagues,

In light of the ongoing global COVID-19 pandemic situation and after careful consideration of the health and wellbeing of the meeting participants, which is our top priority, the ESVO board have decided to go virtual. We feel importance of face-to-face meeting from social point of view, but remain firmly committed to prioritizing the health and safety of our members, participants, partners and organizers and apologize for any inconvenience.

We are happy to inform you that our main speakers Dr. Enry Garcia da Silva and Dr. DJ Haeussler confirmed their participation in 2021. Main topic is **"Management of the lens surgery"**.

Please book **September 30th - October 3rd, 2021**.

We are preparing for you virtual version of conference with the high level information and you can enjoy it from your home. You can expect a Hereditary Eye Disease session with many challenging slides and interactive explanations of hereditary eye disease and breed predispositions.

News approaches to intraocular surgery and management of the lens surgery amongst other topics will be presented in a two and half-day scientific program including oral presentations and a poster session from which the abstracts will be printed in Veterinary Ophthalmology. You can look forward to hearing the main conference speakers: DJ Haeussler, Jr., Enry Garcia da Silva and Stefan Kindler. **Dr. D.J. Haeussler** is Board Certified Veterinary Ophthalmologist who was trained by prof David Wilkie at Ohio State University. **Dr. Enry Garcia da Silva** is the first Brazilian to be ever accepted into a Veterinary Ophthalmology Residency in North America and to become a Diplomate of the ACVO (American College of Veterinary Ophthalmologists). **Dr. Stefan Kindler** is a member of a number of veterinary associations as well as being the only veterinary member of the German and the European Societies of Cataract and Refractive Surgery.

Two virtual workshops are prepared for you on Sunday. We will start early morning on Sunday October 3rd with "Breakfast with Mentors" organized as round table discussion goes through cataract surgery in details spontaneously, discussing "face to face" with mentors - details before cataract surgery, how long can we wait for lens surgery in predisposed breeds for lens instability, an ECP as possible option for IOP spike prevention and many more.

Second wetlab will be full of practical tips and tricks. Topic "Intraocular devices" means doing something using intraocular devices such as various IOLs and injectors, capsular tension rings, iris hooks, capsule hooks, etc. You can follow different techniques and approaches on pig eyes under supervision of both our key speakers.

During all congress days', sponsors and exhibitors will present you the most recent innovations in the veterinary ophthalmology market, virtual stands will be prepared and ready to welcoming you.

Only social program will be limited, but presentation of the best "eye" picture will be ready.

Some lecture will be pre-recorded, some will be "live", but be sure, there are many reasons to attend.

You can **submit your abstract** until **July 31st, 2021** and become an active part of the ESVO 2021 conference.
